

2026 Titles & Companies

The following list represents a diverse group of titles and organizations that attended OT.SEC.CON. 2026, highlighting the breadth of professionals engaged in advancing operational technology (OT) security.

OT.SEC.CON. is the premier Houston-area conference where operational technology meets cybersecurity, bringing together owner/operators and cybersecurity experts in a collaborative environment. The event is designed to bridge the gap between these communities, fostering meaningful conversations and a deeper understanding of the unique challenges within industrial environments.

Attendees span a wide range of roles and industries, including cybersecurity professionals, industrial engineers, control system specialists, risk managers, policymakers, and technology leaders—all committed to strengthening and protecting critical infrastructure. By uniting these perspectives, OT.SEC.CON. continues to build a strong, collaborative community focused on improving resilience across industrial systems.
